About RLE INTERNATIONAL

The RLE INTERNATIONAL Group is one of the world's leading development, technology and consultation service providers to the international mobility industries. With more than 30 years of experience and a global concept with sites in Europe, North America and Asia, around 2,100 engineers and specialists are constantly keeping ahead of technological progress and adding value for international partners along the value chain. RLE sites in Europe, North America and Asia guarantee our customers a direct and solution-oriented approach. Our teams are highly experienced in understanding the products and specifics of demanding customers and always provide superior services. Our projects range from individual orders for conception and design to the development of complete modules to a functional final product. In addition to conventional engineering services, we also rely on modern technologies and unlock new potentials for our customers utilizing digital engineering, machine learning, graph technology and artificial intelligence. Through our many years of experience, we have earned an established reputation as a leading specialist among the major OEMs and far beyond the automotive sector worldwide.
